BODY CARE

Body Wraps 145
Improve the texture and appearance of the skin by helping to rid the body of excess fluids and toxins. Detoxification, boosting of the lymphatic system and metabolism, body contouring, inch-loss, and skin tightening.

Body Scrubs 145
Exfoliate and hydrate the skin, leaving it smooth and soft, removing dead cells from the skin's surface, freeing ingrown hairs and smoothing razor bumps. The best way to prepare your skin to tan.

We also recommend pairing an anti-cellulite massage with one of these amazing treatments for the best results.
